Fat Cat Exhausts

10/2011

## New! D&D 2:1 Fat Cat Exhaust Systems for 2012 H-D® Switchback® Models

D&D Exhausts' popular **Fat Cat 2-into-1 design** is now available for 2012 **Switchback® models**. D&D systems consistently outperform other popular exhaust brands, especially when tested on larger displacement performance engines. **D&D builds exhausts systems engineered to perform, fit and look great!**

Inspect a D&D pipe, and you'll find **true American-Made craftsmanship**—from the hand-ported inlets and collectors, hand-fit heat shields with machined and welded steel clamp brackets, heavy-duty mounting supports and flawless finishes, you'll know you made the right choice for your Harley®.

The [New! D&D Fat Cat for Switchback Models](#) is available with the following style mufflers:

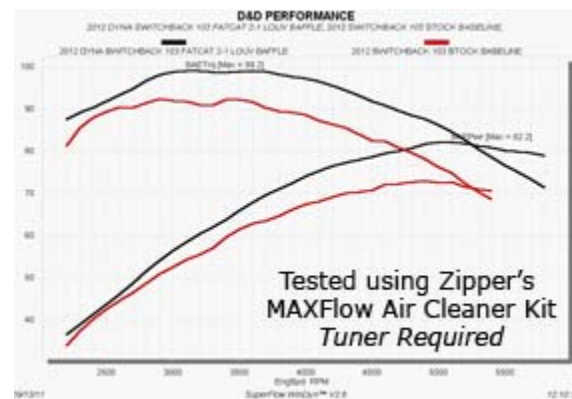

**Slant Style Muffler:** Follows the saddlebag slant profile, muffler exits at the end of the saddlebag

**Back-Cut Style Muffler:** Slants opposite of the saddlebag profile, muffler exits at the end of the saddlebag

Zipper's stocks these 2-1 Fat Cat pipes with the following baffle options:

**Louvered:** Original baffle design, louvered and unwrapped to provide higher flow. Louder exhaust note and good balance of torque and horsepower. *"Quiet" Option is available; baffle is wrapped with sound control material to lessen the bark.*

**Big Bore:** High flow perforated, big bore design. Loudest exhaust note and most flow. Designed for the rider with extensive performance modifications who wants maximum high rpm output. *"Quiet" Option is available; baffle is wrapped with sound control material to lessen the bark.*

'12 Dyna® Switchback® 103", Fat Cat, Louvered Baffle  
Max Torque = 99.2 and Max HP = 82.2

**All models are available in brilliant chrome or high-temperature black powder coat finish.**  
Not for sale or use on pollution controlled vehicles. Made in USA.
