

Zip Kits for Harley® Tri Glide® Models

THUNDER MAX

Rinehart® Xtreme®
3.5" True Duals

Got a new 103" Tri-Glide® and wondering where the power is? *It's there, you just have to apply some Zip to it!* No new engine responds to simple intake, exhaust, and EFI changes like a new Harley engine with a Zip Kit installed. Just bolt-on and plug-in a new Zip Kit, and you'll experience the benefits of Zipper's pre-engineered and road-tested kits. Zip Kits include a pre-mapped ThunderMax® EFI module, MAXFlow air cleaner kit, and performance exhaust of choice. Want to take your Trike to another level? Add cams for an even greater HP/Torque boost.

#517-305	#517-305	Red Shift® 525 Cams Zip Kit

"It really is incredible! The Zip Kit woke up my Trike. It is so much fun to ride now. I can't wait to go out and hit the throttle. I had fun before, but weight and poor throttle response held me back. Now my Trike rips! Just hit the throttle and go!"
